

# DavidM QL Gold

## A unique gold colour with unique capabilities

The QL Gold blanket surface offers superior transfer properties and excellent ink affinity. The precision buffed surface creates a micro-textured printing medium for unsurpassed paper and ink release. Plus, you'll get up to colour fast and stay in register. The tougher surface lets you switch paper stocks and web widths with less concern about edge cutting and it's overall solvent-resistance, ensures dimensional stability. Gauge loss and sinking at the gap are minimised, especially on narrow gap presses.

Features	Benefits	Specifications
Precision buffed surface.	Buffed printing medium for unsurpassed paper and ink release. Solvent resistant.	<b>Colour:</b> Gold
Microcellular-compressible base.	Unique construction for resistance to gauge loss at the gap ensures maximum print length. Downtime and paper waste costs are reduced through fewer smashes, feed problems and web breaks.	<b>Surface:</b> Ground
Compatibility and versatility.	Compatible with advanced pressroom chemistry and plate systems. Solvent resistant surface for protection against high KB inks and harsh blanket washes.	<b>Thickness:</b> 1.95mm, 1.70mm
		<b>Hardness:</b> 78° Shore A
		<b>Compressibility:</b> 0.15mm @ 1060 kpa Typical 0.18mm @ 2060 kpa Typical
		<b>Elongation:</b> <0.70% @ 10 N/mm
		<b>Tensile Strength:</b> >60 N/mm
		<b>Face Compound:</b> Solvent resistant rubber blend

## Optimise your on-press performance

Over the years, Day's printing technologists and pressroom chemists have learned the dynamics between printing blankets and pressroom chemicals play a vital role in on-press performance and profitability. And they've learned how to analyse these dynamics to help printers resolve problems and optimise their printing results.

Day's laboratory experts, technical support team and sales consultants work together with printers to recommend the right combination of pressroom chemicals and printing blankets to achieve optimum performance. A consultative service offered only by Day International.
