

Varn Non-VOC Wash

Blanket and roller wash

Varn Non-VOC Wash has no VOC content and therefore eliminates vapour emissions during application.

Varn Non-VOC Wash has high ink solvency power that leaves clean, glaze free blankets and rollers yet will not attack positive plates.

Varn Non-VOC Wash has a high flashpoint in excess of 100°C and therefore reduces risk of fire.

Varn Non-VOC Wash is water miscible to easily remove water soluble and solvent soluble glaze, blanket piling and lint.

Features	Advantages	Benefits	Product Benefits
Contains no VOCs.	Reduced vapour emission. Low odour.	Safer & improved working environment. Environmentally friendly.	<ul style="list-style-type: none"> • No VOCs - made to EC requirements. • Low odour. • Very low swell on nitrile rubbers. • High flashpoint (>100°C) AIII. • High ink solvency. • Water miscible. • Fogra approved.
Water miscible.	Removes water soluble and solvent soluble glaze, blanket piling and lint.	One application removes all debris.	
High ink solvency power.	Suitable for application on blankets and rollers.	Versatile.	

Directions for use

Blankets:

Mix with an equal quantity of warm water, apply to blanket and allow to penetrate ink/lint residues. Use a second application and buff dry.

Rollers:

Use neat or mix with 10% water to remove gum glaze, ink and lint. For optimum performance use in conjunction with Varn Take It Off/Revitol and Varn Calcium Deglazer as part of a regular press maintenance system.

For automatic systems, use as instructed by installation engineer.

For additional information please refer to safety data sheets.
